ABOUT US

The Neoteric Company (Pty) Ltd t/a Neotronic Technologies (NEO), a level one B-BBEE contributor, is your one-stop technology partner. The company is in operation since 2009. The owner-managed business provides a hands-on approach at every step of your journey to ensure seamless implementation of your technology solutions.

The company was conceived from the idea of improving experiences through the integration of technological solutions.

At Neotronic Technologies, we leverage our deep industry knowledge to provide tailored solutions that ensure sustainable success and operational excellence. The growing operation assists businesses and individuals with finding the most cost-effective and efficient solutions from a broad spectrum of ever-changing product offerings. We can gladly assist with turnkey projects and continually help our clients meet their business-critical deliverables.

We conduct ourselves with honesty and integrity while living our core values:

- Professionalism
- Integrity
- Efficiency

We actively seek to support local businesses.

OUR MISSION STATEMENT

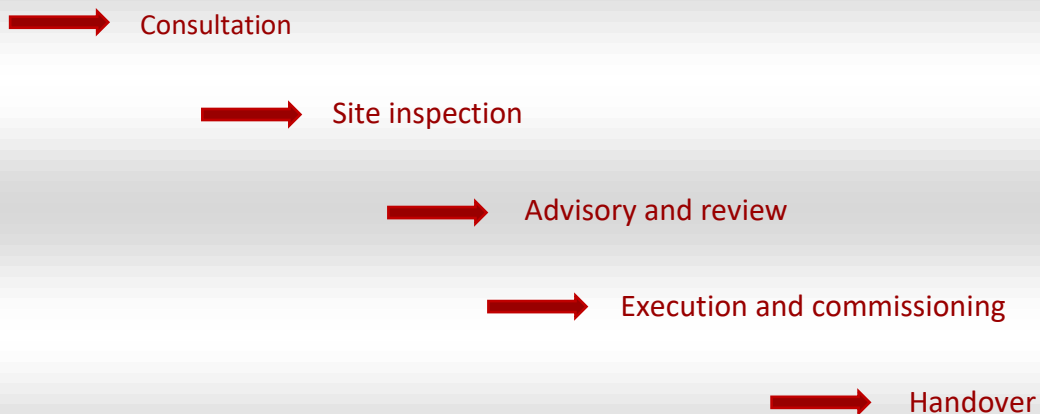

We aim to consistently exceed expectations by providing effective SOLUTIONS at the BEST PRICE while constantly finding new ways to IMPROVE our service offering.

OUR PRODUCTS AND SERVICES

We provide national services to large corporates, smaller enterprises and domestic customers and have the experience and technical capacity to handle projects of any size.

Our business process is simple yet effective which saves time and money.
